

## **March Family Services Comm Report**

We have had three of our new families drop out for various reasons. The other families are working diligently on their sweat equity hours. At our meeting we discussed about doing criminal checks on questionable applicants. We also discussed the age limits for volunteers working on the construction sites. It was also discussed about calling a couple of the previous applicants who have resolved their problems and setting up on Orientation at the office for them. Terry would like to increase the number of families since we have had numerous ones drop out.
