

March Family Services Committee Report

All the new Habitat families have signed their Letter of Intent. They all are eager to start their sweat equity hours. The Katune family's Wall Raising took place on March 14. On March 21 the Murray family will have their Wall Raising. I gave a short review on being a Habitat partner for the new partners in the committee. We discussed the Home visit form and ways to improve it.

The Family Services Committee makes the following recommendation to the Board of Directors:

When partners recruit volunteers to help with construction on their homes these volunteers should not be restricted from doing so even if they have worked for another family in the past.
